I Wish I Could Sing

Tone deafness is extremely rare, yet somehow not everyone can sing as they would like. If you sang as a child but never found your adult voice, if you sing in the bath, but never in public, if you find singing painful, if you already sing, but would like to improve – come and try some easy exercises and songs in the privacy of the class.

I Wish I Could Sing Better

This is a follow-up class to 'I Wish I Could Sing'. It continues the development of the voice and ear with exercises and simple unison and part-songs, rounds and canons. Some opportunity is given for solo work and addressing individual problems, but in the context of whole-class participation. There is an introduction to reading music notation. The aim of the class is to build on the confidence achieved in the previous term, to extend the range of the voice, and to improve its quality. The atmosphere is relaxed and friendly.

I Wish I Could Sing Even Better

For those who have some experience of singing. This class will give further instruction in the use of the voice, incorporating both individual attention and ensemble group pieces.

Choral Workshop

If you would like to sing in a group, sing in simple parts, sing several different styles of song, you can experience some of the enjoyment – and the difficulties – of this type of singing in this class. Training in vocal development, part-singing, blending and small solo spots will be given.

I Wish I Could Continue Singing

This class is mostly for those who have done all the 'Wish Sing' courses, and want to further improve their voices, knowledge of repertoire, general music knowledge, and to gain some experience of solo as well as ensemble singing. However, the class is also suitable for those who have some previous singing experience, but need to gain confidence. A different aspect of the repertoire is highlighted each term, as well as some moderately easy ensembles. The class is extremely friendly and supportive.

Malden Community Choir

If you would like to sing in a group, sing in simple parts, sing several different styles of song, you can experience some of the enjoyment – and the difficulties – of this type of singing in this class. Training in vocal development, part singing, blending and small solo spots will be given. In the Spring term one work will be prepared. It will be a Gilbert & Sullivan opera or similar, to be performed in a semi-staged version at the end of term. Chorus parts will be given out in advance, so, if you are interested, please contact the tutor regarding this.

Music Skills*

For those who want to read, write and understand music – from the beginner who needs to know how it works, to those who want to develop their existing skills. Classes include aural understanding, reading, composition and harmony. *Maximum of 10 students.

Choral Ensemble

A singing group for female singers of some experience, who would like to study something a little more challenging, in more depth. Usually three or four pieces are studied each term.

Autumn and Spring Sing - 1 Day Workshop

A day of group singing for fun and a sense of achievement for all levels – whether you have never sung in a group before, or have some previous experience. The programme will include basic singing technique, simple songs and rounds, and one or two longer, fun pieces to get your teeth into and perform by the end of the day. There is also the possibility of some individual vocal advice if desired.

Horticulture, Craft & Textiles

Calligraphy

Calligraphy is a pleasing and exacting craft, involving historical knowledge. It is the design and execution of lettering with a broad tip pen or brush and modern calligraphy ranges from functional inscriptions and designs to fine-art pieces where the letters may or may not be legible.

First time students receive introductory talk on the background of calligraphy, the tools and their use. This will include a demonstration of the first script to be learnt – Foundation Hand. They will be taught individually by demonstration and begin to form letters of the alphabet at their own pace.

Students attending for their second / third term will begin a more complex piece using one or both of the scripts learnt during the previous term(s). This piece will also involve decoration, graphic or illustrational. It is expected to last five or six weeks. They will have the choice of learning a new script.

Regular students will discuss and plan with the tutor their term's project. This will be based on their own choice of lettering, design and content but will be directed and advised by the tutor.

£10 Calligraphy Taster

If you want to try before enrolling for the course, come along to our £10 taster. Meet the tutor and other students, have a go and find out more about this fantastic hobby!

Making Clothes

This course is designed for students to use commercial patterns and adapt them to fit. All the basic techniques of dressmaking are taught with students being given some individual attention. If you are a beginner then the first class should be used for consulting the tutor on choice of pattern, fabric and equipment needed.

Patchwork & Quilting

Come and join a friendly and supportive group while learning the skills and techniques of making beautiful patchwork quilts for your family, home and friends. We will cover colour and

design techniques, fabric choice, and cutting, piecing, quilting and finishing techniques using both hand and machine, all at your own pace. Your teacher, Sue, has many years of teaching experience and will nurture your skills and help you achieve more than you hoped. If a full sized quilt seems too much then start by making a cot quilt, or perhaps a miniature quilt, a set of table mats or a throw for the lounge. Or, if you really want a challenge then go for gold with competition work. Either way, or anywhere in between there will be lots of advice and warm support. Your family and friends will be amazed at what you can do.

Upholstery & Soft Furnishings

This is an upholstery class that is suitable for beginners, and will cover the basics of both traditional and modern techniques. The tutor is a qualified upholsterer who has been in the trade for over 45 years.

In your first class you will get a demonstration of the basics. Please bring along a small project that you would like to work on; a small stool or chair seat frame is ideal. During the first session the tutor will assess your project and advise the materials you will need to purchase to complete your item. You will need to source your own fabric but padding etc can be purchased from the tutor who will order this in bulk.

A full list of tools and equipment required will be provided at the first session.

Flower Arranging

Simple ideas for a variety of occasions, dinner parties, presents etc. Suitable for beginners to intermediates. Students will need to bring their own equipment, flowers etc. The first class will be a demonstration and will cover technique and advice on choice of materials. A list of requirements for future sessions will be handed out at the first class.

General Interest

Introduction to Digital SLR Photography

Do you want to take control of your camera and learn about its essential functions? This is a short course to inspire you to take your photography a step further and put you on the road to producing photos you would be proud to display to others.

Find out about aperture, shutter speed and ISO settings and discover how these can be used creatively to control exposure and depth of field. We will also cover basic composition tricks to take your photos beyond snapshots.

You will be encouraged to practice the techniques covered and bring your photos to class to share and discuss.

You will need to provide your own digital SLR camera or similar (providing it has a full range of controls) and have use of a basic photo editing computer program that allows a range of adjustments (eg. Photoshop Elements or similar).

Surrey History

The class will study the Georgian period of Surrey. We will look at the life of George Vancouver who discovered Vancouver Island and who lived at Petersham.

We will also discuss the life of the actor George Garrick who lived at Hampton and built a temple to Shakespeare. We will also cover the lives of the Dysarts of Ham House.

There will be five visits during the academic year, probably to Hampton to see Garrick's Villa plus temple, also to Ham to see the area where the Dysarts lived. We will also visit the town of Dorking with its various Georgian connections.

Creative Writing

A friendly, relaxed class, for those who have always wondered whether they had a book or a few poems in them. You may be a complete beginner, or you may have been too self-conscious to show anyone anything.

Everyone's in the same boat in a writers' class – and everyone encourages everyone else. Some people from the previous year may continue to attend this class, as it's a supportive group. We have a go at whatever forms interest people – short stories, poetry, plays. Pointers will be given about construction, characterisation, atmosphere, etc., and criticism is positive but honest. Bring a pen, paper, and, if you want to, something you've written at home.

Art Courses

General classes cater for everyone. Please note, students are responsible for providing their own art materials. A sheet of white cartridge paper and a soft pencil should get you through the first lesson. In some cases a small additional fee will be charged for the model, payable to the tutor.*

Portrait Drawing & Painting*

This course is for all levels, from beginner to experienced. The classes consist of building a portrait through keen observation, constructing the forms of the head, neck and shoulders within the disciplines of line, tone, shapes and colour.

General Drawing & Painting

Any medium – oil, watercolour, pastel, pencil, pen and wash. Any subject, instruction on perspective, colour theory and composition.

Watercolour Workshop (Beginners)

A general class to give an introduction to the basic aspects of drawing and painting. Guidance is given on how to draw and where to start with watercolour painting. You will be taken step by step through the use of colour and the various effects that can be used to bring your painting alive! Different subject matters are looked at including landscape, portrait and still life.

Watercolour Workshop (All Levels)

Using a variety of subjects (landscapes, still life, architecture and more), develop your drawing and watercolour techniques. You will experiment with colour washes, tone, colour combinations and other special techniques to create outstanding artwork.

Suitable for all levels, but assumes some prior experience of painting.

Saturday Watercolour Workshop (Alternate Saturdays)

This is a very stimulating, but also very friendly class, that invites all levels of expertise from beginners onwards. During the year we attempt to cover whole range of subjects from still life and portraiture in the studio, to landscape painting, which we try to arrange out of doors (weather permitting).

It is an ideal class for those who want to enjoy this lovely medium, but who just don't have the time during the week.

Oil & Acrylic Painting Workshop

This class in the main is run as an open workshop. Some of the students are relatively new to art practice, others are more experienced.

Usually, the less experienced student will follow the brief that the tutor introduces at the beginning of each term. The main emphasis is on drawing from observation to begin with, to enable the student to explore shape, form, space, pattern, tonal relationships, composition etc. Other visual sources such as photographs can be used in conjunction with drawing, to help build a wider visual vocabulary and enable the student to progress when making paintings.

The more experienced students can explore the possibilities of the brief introduced by the tutor or progress along their own lines and interests. In these cases, the tutor will give tuition and guidance when needed or asked for.

Exploring other artists work, traditional and contemporary is also part of the students learning on the course.

Life Drawing & Painting*

Working from a model, try a variety of innovative approaches aimed at improving observational skills and extending knowledge of techniques. There will be a range of long & short poses.
